Cuyama Buckhorn through your lens*

## THE BUCK STOP

We opened up shop in June 2019 to bring together our local community and travelers passing by, through partnerships with sustainable companies including Canyon Coffee and Flowerhead Tea.

The Buck Stop provides a space to pop in and connect over a hot coffee and freshly-baked pastry, while admiring the local products of Cuyama Valley with and a view of the beautiful Caliente Mountain Range.

## OUR PARTNERS

### Canyon Coffee

We're honored to partner with LA-based roaster, Canyon Coffee. This sustainably-sourced, craft coffee company cares about every step of the coffee-making process, starting with the farmers growing the beans on the farm, all the way to the baristas dialing in and pulling shots of espresso, right here in our high desert coffee shop.

### Flowerhead Tea

Flowerhead Tea is changing the world of wellness, one cup at a time. Founded in Oakland in 2019, the company started as little pop-ups, sharing cups out of their 1667 "Steep Jeep" tea truck, now expanded into cafes, shops and online sales while maintaining their focus on quality, sustainability, and strong relationships.
