A brief history on THE CUYAMA VALLEY

New Cuyama (from the native Chumash "kuyam", meaning clam) was a dream of the desert west. The high desert plain and mountains made ideal grazing lands for homesteaders and cowboys of the 19th century. An oil boom in the 1950s, when Cuyama Buckhorn was constructed, brought new families and farms to the quiet valley. The glamour that came with that liquid gold made the hotel an iconic destination for folks as far away as Bakersfield.
